

# RUBY COLLINS

GENERAL CONTRACTORS

SINCE 1970

GENERAL CONTRACTING + CONSTRUCTION SERVICES

# A RICH HISTORY BUILT ON SUCCESS; SERVING THE SOUTHEAST FOR MORE THAN 50 YEARS.

Originally founded by Ed Ruby in 1952, Ruby Construction Company was incorporated to take advantage of the booming construction industry in the Kentucky area to engage in public utility work and heavy construction.

In the late 1960s, Ruby Construction relocated to Georgia to expand its expertise in the construction industry, eventually forming and incorporating Ruby-Collins Inc. (RC) in August of 1970 as a wholly-owned subsidiary of Ruby Construction Company.

Today, Ruby-Collins, Inc. is an employee-owned general contractor headquartered in Georgia that performs construction services for a wide variety of clients throughout the United States.

RC has a principal location in Atlanta, Georgia and strategically-placed regional offices on the southern coast of Georgia and the northern coast of South Carolina.

Ruby-Collins has been a highly respected member of the construction industry for more than 50 years, completing over \$2 billion in water and wastewater contracts, including the construction of water and wastewater treatment facilities, water, sewer, and stormwater pipelines, pump stations, pipe rehabilitation, tunnels, and other related heavy civil work. The company continues to be a top leader in the industry and repeatedly has been named one of the top contractors in the Southeast by Engineering News Record (ENR).

# RUBY-COLLINS IS A LEADER IN INFRASTRUCTURE PROJECTS INCLUDING:

Water | Wastewater Treatment Plants

Pipe Rehabilitation

Water | Sewer | Storm Pipelines

Tunneling | Jack & Bore | Shafts | Grouting

Pump Stations

Heavy Civil Site Work

MULTIPLE YEARS IN A ROW

## PLANT DIVISION

The RC Plant Division is dedicated to successfully delivering water treatment projects for municipal, industrial, power, water authorities and private clients to best serve our communities. With innovation and sustainability in mind, our team of experts is highly qualified to deliver water treatment projects for public and private clients throughout the southeast. We specialize in water treatment facilities, pump stations, storage tanks, new construction, expansion, and renovation.

### SERVICES INCLUDE:

- Earthwork
- Underground Pipe
- Concrete
- Miscellaneous Metals
- Welding
- Rough Carpentry
- Process Equipment Installation
- Process Piping

### THE PLANT DIVISION WORKS ON A WIDE RANGE OF PROJECTS INCLUDING BUT NOT LIMITED TO:

- Water Treatment Facilities
- Wastewater Treatment Facilities
- Pump Stations
- Storage Tanks
- New Construction
- Expansions + Renovations
- Public + Private Clients
- Design-Bid-Build
- Design-Build
- Construction Manager at Risk (CMAR)

## PIPELINE DIVISION

The RC Pipeline Division comprises experts ready to tackle any client's challenge. Our team has demonstrated experience in new construction and rehabilitating existing systems. We specialize in complex large-diameter sanitary sewer transmission/collection and outfall systems, water transmission and distribution systems, and stormwater systems. We have experience with a multitude of piping materials: DIP, CCFRPM, Steel, PVC, HDPE, and PCCP. Our team prides itself on an extensive history of partnering with various clients to provide high-quality, complex projects.

### SERVICES INCLUDE:

- Water Distribution & Transmission
- Sanitary Sewer + Force Mains
- Reuse
- Stormwater Systems
- Municipal On-Call Services
- Emergency Response Services
- Value Engineering + Project Budgeting
- Construction Feasibility

### THE PIPELINE DIVISION WORKS ON A WIDE RANGE OF PROJECTS INCLUDING BUT NOT LIMITED TO:

- Finished Water Transmission & Distribution Systems
- Raw Water Intakes & Pipelines
- Sewer Collection, Outfall, and Force Mains
- Reuse Water
- Industrial Piping Systems
- Large Diameter Storm Systems
- Aerial Pipe Installation
- Subaqueous Pipe Installation
- Wetlands Crossings
- Pipeline Repair + Replacement
- Design-build & CMAR

## HEAVY CIVIL DIVISION

The RC Heavy Civil Division is led by a team with decades of experience providing complete site development solutions to General Contractors throughout the Southeast. This division partners with clients on challenging infrastructure projects where close collaboration is key to success. Our highly skilled team can provide turn-key management and development for all phases of construction including demolition, grading & excavation, storm drain, sanitary sewer, water main, curb & gutter, and asphalt.

### SERVICES INCLUDE:

- Demolition
- Clearing
- Grading
- Excavation
- Domestic Water, Sewer, + Storm
- Underground Detention Structures
- Curb & Gutter
- Asphalt Paving

### THE HEAVY CIVIL DIVISION WORKS ON A WIDE RANGE OF PROJECTS INCLUDING BUT NOT LIMITED TO:

- Multifamily Construction
- Hospitality & Restaurant
- Faith Based & Institutional Construction
- Student Housing
- Mixed-use development
- Industrial
- Corporate
- Government

## TRENCHLESS DIVISION

The RC Trenchless Division is capable of performing a multitude of solutions to meet today's infrastructure challenges. Our team can dig and install deep shafts of varying diameter to support many trenchless applications. We specialize in tunnel and horizontal boring utilizing multiple methods for both pressure and gravity pipeline applications. We also own and operate our spiral wound PVC lining equipment for rehabilitation for gravity pipeline applications.

### SERVICES INCLUDE:

- Wound Pvc Pipeline Rehab
- Auger Boring
- Deep Shafts
- Tunnels
- Jack + Bore
- Deep Point Repairs
- Cellular Grouting

### THE TRENCHLESS DIVISION WORKS ON A WIDE RANGE OF PROJECTS INCLUDING BUT NOT LIMITED TO:

- Sanitary Sewer Rehab
  - Storm Sewer Rehab
  - Trenchless Point Repairs
  - Trenchless Road Crossings
  - Grout Fill Pipeline Abandonment
  - Tunnel Boring Installations
